MOVIE PICTURE BUSINESS GOOD

Officers Elected at Convention Here Yesterday and Picture Men Had Banquet at Lee-Huckins Hotel.

New officers for the year were elected at the convention of the Motion Picture Exhibitors' League of America at the session held at the Lee-Huckins hotel Friday afternoon. The convention elected Tom Boland of the Empress national vice president for the ensuing year.

The state branch of the league also elected officers. R. H. Powell of the Empress heading that organization as president, Ralph Talbot of Tulsa first vice president, A. H. Moman of Shawnee second vice president, Morris Lowenstein of this city secretary and Lee Oile of Chickasha treasurer.

Last night the moving picture men enjoyed a feast at the Lee-Huckins with more than a hundred in attendance. At the convention it developed that the business is in good condition in Oklahoma and that it is growing. A resolution had been prepared that had to do with legislation but it was not adopted. The delegates discussed the subject but took no action. The sentiment of the delegates was for better pictures, lower prices and that fact will be made known to the producers.

PASSING ON WARRANTS

Some of Those Passed by McBride Are Among the Number on Which Payment Has Been Refused.

A thorough description and explanation of each of the claims and warrants covered in the resolution introduced by Senator Thomas in the Senate several days ago, in which it was sought to ascertain the legal status of certain state warrants upon which payment had been refused, is being made by State Auditor E. B. Howard. Among these claims are those amounting to about \$45,000 in interest on account of the state national at guard. It will be explained by Mr. Howard that these claims were refused payment because of an opinion from the attorney general who held there had been no specific appropriation made for them, and that this would be necessary before the claims could be paid. They all have the approval of the proper authorities.

There are a number of warrants also on account of the Red Book. As to these the history of the claims will be given by Mr. Howard and the disposition of them must be left with the special committee appointed from the senate to report upon them.

WILL PAY OLD BILLS

Senate Again Appropriates \$25,000 to Pay for Work That Was Done in Winding Up the Last Session.

C. B. Kendrick of this city, president pro tem, and J. H. Maxey of Muskogee, speaker of the house of the 1913 legislature, are among those who will be benefited financially by re-enactment of bill making an appropriation for members and employees of the former legislature. The senate this morning passed the bill finally which carries \$25,000, the same amount as the bill which passed at the last session, but which was declared unconstitutional by the state supreme court because of the misapprehension of the date of adjournment of the legislature.

Kendrick and Maxey drew \$6 a day each, including Sundays, from July 9, 1913, after the session had adjourned, until October 7, a period of about three months. They were employed by authorization of the session in editing and having printed the journals of the respective house. A number of clerks also drew the same remuneration as assistants in the work.

The bill passed by the senate today merely reappropriates the amount set out in the measure invalidated in 1913 through a technical error.

The senate also passed finally a bill for Senator Thomas appropriating \$10,000 for the office of fire marshal.

NEW CLUB IS FORMED

Temporal, physical and spiritual aid will be given by the organization through the medium of various committees and general charitable work will be the feature of the work of the club.

BRIDE FORGETS AGE

But When Informed that She Was Too Young to Marry She Recounted and Found She Was Eighteen.

A hurried call for a recount resulted favorably to K. C. Alexander and Miss Virginia Hawks of Clinton, Ok., when the pair applied for a marriage license at the court house today.

Miss Hawks first gave her age as 17 years, and upon being told that she would have to have the consent of her parents if that were her real age, the prospective husband immediately called for a recount.

"Why, I'm eighteen, of course," immediately said Miss Hawks. "I have been seventeen for a whole year now and as my birthday was just the other day I was not used to saying I was eighteen."

Joe O'Leary, who is a deputy in the license office immediately conceded the point and the happy young people went away arm in arm with the look of disappointment which had been for the moment on their faces immediately changed to one of happiness.

The young people came from Clinton and should they have been forced to call on the bride's parents it would have resulted in a postponement of the happy event.

LUSITANIA DESERTED

Two Hundred Americans Quit Steamship Departing From London Under British Flag.

LIVERPOOL, Feb. 13.—The Cunard line steamer Lusitania, the vessel which flew the American flag across the Irish sea on her last trip as a measure of protection against German submarines, sailed from Liverpool for New York at her usual hour today under the British flag. Whether or not this sailing will be flying when the Lusitania reaches the Irish sea was a question to which the keenly interested passengers found it impossible to obtain an answer.

The Lusitania carried a large list of passengers including many Americans. Prospective American passengers to the number of 200 however, cancelled their bookings on the Lusitania at the last moment and transferred over to the American line steamer St. Paul which also sailed today for New York. The St. Paul had the largest passenger list since the rush of American refugees last fall.

A RESERVE CIRCULAR

Long Expected Bank Notice Indicates Preference for Discount of Acceptances From Member Institutions.

WASHINGTON, Feb. 13.—Although federal reserve board, in its long expected circular on acceptances made public today, does not shut the door to purchases of acceptances in the open market by the twelve federal reserve banks, it indicates a preference for the discount of such paper when presented by member banks.

The circular calls the acceptance the standard form of paper in the world discount market. It says that although the acceptance is in its infancy in American banking, it will prove an effective substitute for the call loan. The circular says preferential rates should be given when acceptances bear the endorsement of member banks.
